For over 60 years, tools bearing the SK name have been recognized and accepted as the finest quality money can buy. Our master toolmakers have set a standard of quality that other manufacturers can only envy. The superior design of SK Professional Tools™ can be seen in every product we produce. Leading edges on all sockets and box end wrenches are chamfered for smooth, easy placement of the tool over a nut or bolt. SK fine tooth ratchets work in tight areas where other ratchets are unusable. The SK Professional Tool™ imprint on a tool is also your absolute guarantee that the tool was made in the U.S. and exceeds U.S. government and A.N.S.I. standards. The SK dedication to quality is evident in our products and is backed by the strongest warranty in the industry. That's why 3 generations of professional mechanics have made the SK Professional Tool™ their number 1 brand.
